Heavy Dealings In the Pit of the Exchange.

CONSOLIDATION

THE M'HATTON COMPANY AB-SCRBS THE CARISA MINE.

The Old Spanish Mins-New Eureks Company-Pleased With the Four

Company—Fleased With the Four Aces—Boss Tweed Ore Body—New Smelting Company—To Ship Victoria Copper.

While the mining share market was active and brisk yesterday, the call of the exchange in the morning was marked by a sharp in nearly all of the favorite securities, the only gains noted being in Mammoth, which, on account of its forthe using dividend, chromoted advances over the selling quotations of the previous Cay. Four Aces was a ready seller, but at fractional learns, the stock being fairly strong at the class. Geyser-Marion, while farmly held, was singgist and unable to draw out any brisk bidding. Grand Central was a favorite, buyer and seller making efforts to get together, but without avail. Mercur hovered close around the 37 mark, with several transactions recorded at a cent or two below this figure. Secamento was Gropped in good-sized bricks at from 52 to 55 cents. Sunbann, one of the leading features of the call of the unifised stocks on the previous day, nattened out, and was a bay advance over the self-ing figures of the call of the unifised stocks on the previous day, nattened out, and was weak at the close at 54 cents bid and 10 asked. Lower Mamman us stronger, although it did not touch 31 in the bidding, as predicted by a few of the company to be filled within the next few days, and it is safe to assume that there are a number of dealers and investors who will be only too find the proving stronger and the size of the call of the unified strong for the purpose of working the mine, the articles of incorporation of the close at 54 cents bid and 10 asked. Lower Mamman us stronger, although it did not touch 31 in the bidding, as predicted by a few of the fact that the dump at the brokers before the call. Still, the sinck was quickly picked up at 50 cents.

That these workings are very old is proven by the fact that the dump at the bidding before the case falled to draw out any more stock after the transfer.

The transfer is prevented by a few to the company to be filled with the company to be filled ngure. Frommento was dropped in good-alized blocks at from 65 to 66 cents. Sunbeam, one of the leading features of the call of the unlisted stocks on the previous day, nattened out, and was weak at the close at 5% cents bid dard 10 naked. Lower Mammont was stronger, although it did not touch it in the bloding, as predicted by a few of the brokers before the call. Still, the stock was quickly plaked up at 75 cents, which was a big advance over the selling figures of the day before. Joe Bowers was firm, and an advance in the bloding before the close failed to draw out any more stock after the transfer of 1,500 shares at 17 cents at the opening. Golden Eagle, while active, was good on a slumpy market, the stock being weak at the close, the boom predicted for this security being shortlived, if yesterday's transactions count for anything. South Swansen found ready buyers at figures given below, while Bullion-Beck Tunnel sold higher than ever before in the history of this stock. stock.

The closing quotations were as fol-

The McHatton Company Absorbs the Noted Carisa Copper Mine. The members of the McHatton com-

pany were in the city from Tintle yesterday, for the purpose of perfecting
the consolidation of the Carisa mine
with the McHatton group, or, rather,
arranging the details for the purchase
of the Carisa, which will be merged
into and absorbed by the McHatton
company, and when this is finally accompany, and the will be most promising properties in the camp,
as the Carisa, although its deepen
workings have not attained a depth of
over 130-feet, has already produced
\$200,000 and over in the precious metals, Milee O'Meara of this city, the
lesses of the mine, having made some
very important disclosures in its workings of late, the addition of this ground
to the McHatton group giving the comany were in the city from Tintle yesings of fate, the addition of this ground to the McHatton group giving the company four claims with which to make a record in the future, and it is stated that it is the intention to at once install a compressed air holst on the ground, the power to be derived from the Mammoth, which is but 3,00 feet distant, and the new shaft, which is now down over 100 feet, will be continued to the deep, the expectation being that with but little more work a spienfid body of mineral will be uncovered. As a matter of fact, the new working shaft on the McHatton ground is but

seven feet from the Carisa line, and while it is known that ore is to be found within a few feet more, work was discontinued for fear that its uncovering would lead to a dispute as to the rightful ownership of the ledge, and this is what led up to the rossolidation as above outlined.

As soon as the details of the transaction are completed it is intimated that the stock of the company will cut an important figure on the Sait Lake market, the showing in the consolidated property being such as to insure for this security a hearty reception at the hands of dealers on the exchange, as well as on the street.

OLD SPANISH MINE

OLD SPANISH MINE.

The Discovery Is of More Importance

tion company was incorporated yester-day in this city, with a capital stock of \$12,599, in 5-cent shares. The company's principal office will be in Sait Lake city, and the proposed smelling and re-duction works will be near Milford, in Beaver county. E. A. Cook is presi-dent; A. L. Morris, vice president; A. J. McMullen, secretary; E. M. West, treasurer, and these, with C. E. Ever-ett and T. M. Farrell constitute the di-rectors. Than at First Supposed.

(Special to The Herald.)

changed hands on the curb yesterday afternoon at 70 cents.

The Idaho Recovery company of Halley has a box of cyanides at the Consolidated Kanasa City sampler.

Hatfield & Sons and the Albion Mining company have moved their offices from the Atlas to the Walker Bank building. C. H. Schue of the La Cigale and other West Dip and Mercur properties will leave this morning for the purpage of impecially these prospective wealth productra.

Investors are keen for good prospective stocks of late, and anything which will bear investigation is being readily snapped up and taken in out of the cold.

Lead quotations took another rumble again yesterday, the latest advices in the atternoon stating that this commodity had dropped to \$1.20, being with one exception the lowest point touched during the present year.

As W. Chisholm and J. D. Kendall of the Ceatennial-Eureka, who have been taking an outing at Polican Bay lodge, on Klamath lake, Oregon, were reported to be in San Francisco the first of the week, their early return home may now be looked for.

At a meeting of the directory of the Little Plusburg Mining company, held Eureka, Oct. 25.—The Illinois Mining & Milling company has been incorporated with Dr. C. W. Clark as president; F. H. Peyton, vice president; W. J. Adams, secretary and treasurer, and G. H. Adams, general manager. W. J. their early return home may now be looked for.

At a meeting of the directory of the Hittle Pittsburg Mining company, held yesterday afternoon, the board authorized George Dermone of the officers of the company, below the company of the officers of the company of the officers of the Little Pittsburg group, and this will be done today.

James McGregor has returned from a visit to Eaphorse. Ida., where he has been to inspect two mines at the place, the Parific and the Oid Cabbins are being worked by him. Both properties are being worked by lessen, the Director of the Oid Cabbins are being worked by lessen, the process are being worked by lessen, of the Oid Cabbins are being worked by lessen, of the Director of the June of the Cabbins to J. H. Whalon and C. S. King of this city. The property of the comsany, which embraces the Stonewall Jackson, November and Silver Aleck claims, is located cast of and in the Immediate vicinity of the Eagle and Bibe Bell mine at Burcha.

Prof. W. H. Tibbals, with several ar-Adams is the superintendent and Will-iam Craig one of the board of directors. The mines are located at Eureka and development work will be pushed rap-

idly.

A 100-foot contract has been let on the Yankee tunnel and a force of men was put to work this morning on this valuable property.

Work on the May Day is progressing finely and Secretary Mulenbach has great hopes of striking a fine body of ore shortly, as the indications are very favorable.

favorable.

Messrs. Fullride and Fields have let a contract to Mr. Bessimer to sink 150 feet on their claim, the Vega, adjoining the celebrated Humbug property. Some very fine specimens of ore have been taken from this claim, and present prospects show that it will, with proper development, rank with the Uncle Sam and Humbug in richness.

LIVE YANKEE PROFITS.

lien G. Campbell's Suit For An

Allen G. Campbell's Suit For An Accounting.

(Special to The Heraid.)

Provo. Oct. 25.—Today the case of Allen G. Campbell vs. the Morse Mining company, came on for trial is the district court. Plaintiff says that he was in 1838, part owner of the Mary Ellen and the Live Yankeen is and is the district court. Plaintiff says that he was in 1838, part owner of the Mary Ellen and the Live Yankeen is and is the district court. Plaintiff says that he was fearly says that he was fearly says and demanded an accounting that afterwards more the company and demanded an accounting that afterwards more were extracted from said mine and says streak is in a vein of several counting, that afterwards more were extracted from said mine and the ampsay was ordered by the court, as he read to suit brought by plaintiff, o an accounting that afterwards more were extracted from said mine and manned in the property which he predicts, in the sample of the said property of the said property is the said property of the said property of the said property is the said property of the said property is the said property of the said property of the said property is the said property of the said prope Accounting, (Special to The Herald.) ovo, Oct. 25.—Today the case of

tion of the Four Aces mine, of which A. Murphy is now manager and the leading spirit, states that he is much pleased with the showing in this prop-erty, and he makes the further state-ment that on the 608 level Mr. Murphy has cross-cut to the hanging wall and has run diritis on the pay streak north and south for a distance of 75 feet, the average width of the high grade ore holy being in the neighborhood of ten inches.

the average width of the high grade ore body being in the neighborhood of ten im-hes.

Mr. Murphy is also keeping on with the work of despening the shaft, his intention being to cut a station at the 650, cross-cut to the hanging wall and then to run both ways on the ore.

The Four Aces has a carload of ore now on the market and another one is now on the dump at the mine.

In spenking of the Four Aces Mr. Will stated that Mr. Murphy had had a great deal to contend with in getting the mine in shape ready to ship, having to do a large amount of dead work before the property could be classed as a steady producer, but that he now had the property in such condition at the present time as almost to be able to guarantee the shipment of at least 100 tens during the month of November.

Mr. Will also went up to the Joe

ber.

Mr. Will also went up to the Joe Blowers, and while he did not examine the underground workings of this property, he was well pleased with its appearance as far as surface indications were concerned, and he states that this property is all right.

To Ship Victoria Copper.

(Special to The Herald.)
Vernal, Oct. 24.—J. C. Coombs, manager of the Victoria copper mine, who is ger of the Victoria copper mine, who is at present in Chicago, sent instructions a short time ago to Rock Pope, foreman at the mine, to ship 29 tons of ore. The ore will be transported over the mountains to Carter statton, on the Union Pacific, by wagon, and from thence by rall to Chicago. The shipment is made to test the value of the ore and the best method of treatment. Several teams will leave here Monday or Tacsday for the mine, and the movement of the ore will commence at once.

Pending the Hearing of the Case On Appeal From Judge Hiles' Decis-on-Copper Plant Receivership Ended and Affairs Turned Over to Three Trustees-Court Notes.

The trial of the suit of the Utah Title Insurance & Trust company vs. William Naylor et al. was begun yesterday before Judge Cherry and a jury, with Messrs. A. Howat and J. T. Richards for the plaintiff and Senator Rawlins and Mr. Hurd for the defendants.

The plaintiff's counsel after examining four witnesses moved that the ac-tion be dismissed without prejudice and

the order was entered accordingly.

The facts in the case were that the defendant Naylor berrowed \$10,000 from day were and bullion receipts yester-day were as follows:
McCornick & Co., ores, \$3,759.
Burnberger & McMillan, ores, \$3,535.
T. R. Jones & Co., bullion, \$18,290; ores, \$5,400. sliver-lead orc.

The Mammoth Minitz company will pay
its October dividend or \$20,000 on the first
day of November.

A 1,000-share block of Lower Mammoth
changed hands on the curb yesterday
afternoon at 75 cents.

The facts in the case were that the defendant Naylor berrowed \$10,000 from Wells, Fargo & Co., and to secure the same gave a trust deed to certain real estate. Mr. Dooly of Wells, Fargo & Co., demanded from Naylor a guarantee of title to the property and also a guarantee against mechanics lien or other encumbrances which might be on it. Naylor arranged with the Utah Title Insurance & Trust company to give the guarantee required, and to secure itself the Title Insurance company took a bond from Naylor with theorie Naylor and John N. Pike as sureties.

In the course of time it became necessary for Mr. Dooly to forcelose the trust deed, and at the time of the forcelosure the bank's claim amounted to \$12,000, with interest, and Dooly bought in the property for that amount. Then it transpired that Naylor had been sued for \$2,164.50 for material and labor in erecting a building on the premises. Indigment had been obtained for the amount against Naylor and the same was declared a mechanics' lien on the premises. The Title Insurance company bought the Judgment and lien and Dooly got a dear title to the premises, then the plainting and Naylor and the same was declared a mechanics' lien on the premises. The Title Insurance company was under no obligation to buy the judgment secured by the lien and that Dooly having received full satisfaction for the amount of his loan by bidding in the property and that the Title Insurance company had no further claim on the property and that the Title Insurance company had no further claim on the property and that the Title Insurance company had no further claim on the property and that the Title Insurance company had no further claim on the property and that the Title Insurance company had no further claim on the property and that the Title Insurance company had no further claim on the property and that the Title Insurance company had no further claim on the property and that the Title Insurance company had no further claim on the property and that the Title Insurance company had no fu

COPPER PLANT AFFAIRS. Receivership Ended and Affairs

Turned Over to Trustees. Receiver Mason of the Salt Lake City Copper Manufacturing company, yesterday filed his final report in the dis-

Copper Manufacturing company, yesterday filed his final report in the district court, which was approved, and he received his discharge. The report showed that there was a balance of \$7.151.35 on hand, held by the receiver. The court allowed the receiver compensation at the rate of \$285.50 per month, from Jan. 1. 1897, payments on account of which had already been made to the receiver.

The court also allowed the attorneys for the receiver. Messrs, Devy & Street, a further sum of \$199 for their services, and when those amounts were pain it left a net balance of \$6,186.33 on hand, which Judge Hiles ordered turned over to Messrs. George A. Smith, David C. Green and Charles Singer, the trustees agreed upon by the creditors of the Copper Flant company to take charge of the property.

The trustees named were the purchasers of the real estate and buildings at the sheriff's sale on Monday.

Judge Hiles made an order yesterday approving of the sale of the real estate and the buildings, and the sheriff will sell the personal property in a few days.

Discovered By a Woman.

The Peace Commission's Work.

The Instructions to the Peace Commissioners before they started to Paris were not made public, for obvious reasons, but from a high official comes the statement that this country will insist upon Spain yielding to every demand we make. She cannot do otherwise than give up eventually. She is like the sick man who is contending with the strong in business circles—atmost powerless. It takes many years for nations to recover from weakness, but sick men can quieldy regain health and strength by taking Hestetter's Stomach Bitters. There have been many and cases of dyspepsia and Indigestion upon the property of the medicine when it looked as though cure was impossible. The Ritters first put the stomach in order and bring about proper digestion of food. Discovered By a Woman.

Another great discovery has been made, and that, too, by a brily in this country? Disease fastened its ciutches upon her and for seven years she withstood its zeverest tests, but her virsi organs were undermined and her death seemed imminent. For three months she coughed incessorily and could not sieep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much releved on taking the disst disse, that she slopi all flight, and with two bottles has been absolutely cired. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamnick & Co., of Sheiby, N. C. Trial bottles free at Z. C. M. I. drug department. Regular size, 5%: and \$1.06. Every bottle guaranteed. Mrs. Winslow's Southing Syrup has been used for children teething it soothes the child, softens the gums, al-lays all pain, cures wind coile, and is the best remedy for Diarrhoea. Twenty-five cents a bottle.

TIME

Mrs. Pinkham Tells How Ordinary Tasks May Produce Displacements That Threaten Women's Health.

Apparently trifling incidents in women's daily life frequently produce displacements of the womb. A slipon the stairs, lifting during mensionation, standing at a counter, running a sewing machine, or attending to the most ordinary tasks, may result in displacement, and a train of serious acids a state of serious acids a state of serious acids a state of serious acids as stated.

a train of serious evils is started.

The first indication of such trouble should be the signal for quick action. Don't let the condition become chronic through neglect or a mistaken idea that you can overcome it by exercise or leaving it alone.

More than a million women have regained health by the use of Lydia E. Pinkham's Vegetable Compound.

If the slightest trouble appears which you do not understand, write to Mrs. Pinkham

at Lynn, Mass., for her advice, and a few timely words from her will show you the right thing to do. This advice costs you nothing, but it may mean life or happiness or both. Mrs. Masy Rennert, 314 Annie St., Bay City, Mich., writes to Mrs. Pinkham: "I can hardly find words with which to thank you for the good your remedies have done me. For nearly four years I suffered with weakness of the generative

organs, continual backache, headache, sideache, and all the pains that accompany female weakness. A friend told my husband about your Vegetable Compound and he brought me home two bottles. After taking these I felt much better, but thought that I would write to you in regard to my case, and you do not know how thankful 1 am to you for your advice and for the beneft I have received from the use of your medicine. I write this letter for the good of my suffering sisters."

The above letter from Mrs. Rennett is the history of many women who have

been restored to health by Lydia E. Pinkham's Vegetable Compound.

LONDON WAS A SELLER

VIOLENT DECLINES IN AMERI-CAN RAILROADS.

Market Was Relieved of Depressing Influences and Prices Began to Climb-Prices Were Firmly Held and Closed at the Best For the Day-Bond Sales, \$2,000,000.

New York, Oct. 25.—The periodical set-tlement on the London stock exchange today developed a vory anxious state of feeling in the financial markets, due to the adverse conditions of the money mar-ticle.

the discount rates at all continental centers.

British consols dropped a full point and all other securities, including American railrouts, showed violent declines. The amouncement of the postponement of the Rritish cubinet meeting brought some relief and the bears were actively covering in London about the time the stock market in New York opened. There were very large and supporting others were the content of the stock market bere at the other of the stock market bere at the time of the stock market bere at the time of the stock market bere at the time of the stock market bear at the different content of the siling for London account was trifling and was soon overcome.

Selling for London account was in fact a small factor, and before the arbitrage radius was concluded for the day London turned briver and took a fair amount of stocks in this market. Consols there recorded almost a full recovery and the upward movement in other departments was almost as violent. Relieved from that depressing influence, prices here mounted upwards quite easily, the short contracts put out in resterday's market being scherally covered, and the large built operators who lod last week's buying resuming the movement with great apparent confidence. The trading was dull in the latter part of the day, but prices were firmly held and closed at about the best.

Not gains in many instances reached a

Suprerae Court Refuses to Continue the Injunction.

If you haven't seen the "Utah Land Gilde," send for it at once. It contains the mest useful information for farmers ever published. Mailed to any address on receipt of 25 cmis. W. M. WANTLAND, 212 South Main, Salt Lake City.

fluences that a severe decline in prices that inaugurated the day's business was not so illegical as appeared upon the earface. Many of the active traders have loaded themselves recently with wheat at what they would consider a dangerously like issue if prace were assiral. Feedle who had bought heavily because they hought war was imminent and no use in the other event listened-te whisperings of a probable peaceful settlement of the Fasheda difficulty and histened to rid themselves of their war-priced wheat. English consols later in the day recovered their early decline. This was halled as the harbinger of peace and helped to bring out more iong wheat and even some from the more carried short sellers. The weak feeling that had prevailed was arrested for a time by a report from New York that 3D bouldeds of wheat had been bought for export. The close was at estagence for December, a loss of recovers the trade of the course. The result of lower prices or carrings and a decline in price of the grain ourse. The recket of lower prices or carrings and a decline in price of the grain for export. Receipts a leavy amount for export. Receipts do were moderate—for the half of the weak need to the grain ourse. The result of lower prices or carrings and a decline in price of the grain for the half of the weak need to have been declined to the weak need to be a long to the lay.

Only ruled weak, with the setting of long property by a nonment scalper the feature. The decline was also assisted by the weakness of wheat and core. May closed §diffic lower.

Heavy grain markets and a further drop in the price of hors, together with lack of besiness caused a concession in the provision market. Trade was narrow, Pork declined 25c and lard and rife 5g 7gc each.
